

Instrument cluster top-left section featuring a fuel gauge on the left, a central digital display showing 'HRT' and a green icon, and a temperature gauge on the right with a red-to-green needle.

Central instrument cluster section featuring a red 'STOP' indicator, a yellow warning triangle, a battery icon, a water level icon, and an oil pressure icon. Below these is a schematic diagram of the vehicle chassis with various status lights (P, R, N, D, S) and a 'VDO' logo at the bottom.

Instrument cluster top-right section featuring two pressure gauges, each with a scale from 0 to 8 and a needle, labeled 'bar'.

Large circular speedometer on the left. The needle is positioned at approximately 10 mph. The scale has markings for 10, 20, 30, 40, 50, 60, 70, 80, 100, and 120. Text includes 'MPH', '125 km/h', 'VARIABLE ANGO', and 'automatic'. A set of keys is hanging from the top of the gauge.

Large circular tachometer on the right. The needle is positioned at approximately 1.5 x 100 rpm. The scale has markings for 5, 10, and 15. A green shaded area is present between 10 and 15. Text includes '1/min x 100' and a logo at the bottom.
